The sketch of "The Battle of Shiloh" on our eighth page is interesting. Though it was fought twenty-five years ago some of the survivors are still living in this county.

R. F. RICHARDSON, a young merchant of Hopkinsville made an assignment of his stock of goods to J. W. Williams last week. Liabilities about \$3,000 assets largely more.

PARTIES from Trenton, Ky., invested in Clarksville real estate Tuesday. This is a good omen, the purchasers will, we think, locate here. A good citizen is a valuable acquisition.

The freight depot of the L. & N. railroad is crowded with goods for our merchants which they cannot receive for a few days until they arrange things in their new locations.

MARRIED at the residence of the bride's father in this city on Wednesday 6th instant, by Rev. W. E. Mobley, Mr. J. P. Lewis, of Christian county to Miss Fannie Joslin.

Mr. Green Nichols, who lives on McAdoo creek, about ten miles southeast of Clarksville, lost a stable by fire Sunday night. Three mules and a cow were burned in the stable.

MR. WARREN G. RICHARDS entertained the audience at the Opera House Monday night with character delineations and recitations comic and pathetic. The entertainment was very satisfactory.

REV. D. A. BRIGHAM, pastor of the Cumberland Presbyterian church in this city, preached the opening sermon at the Presbtery in Lebanon Wednesday evening 6th instant. The Presbtery closes to-day.

The High School Commissioners of Elkton are in trouble about the \$7,000 of bonds they are trying to issue. The tax was an injustice to the farmers three miles from the town, and they denounce the levy of the tax as a fraud and an outrage upon them.

MAXEY TERRELL who killed young Russell in Stewart county, a few months ago was captured last week in Texas and brought to Clarksville. Sheriff Staton took him to Dover Monday where he is now in jail. U. S. Marshal, Col. Frank Wilson caused his arrest.

This has been a week of cold breezes caused, no doubt by snow storms North of us. Snow was fourteen inches deep in Louisville last week, and a traveler reports that up in Dakota men were nailing scantlings on top of the telegraph poles to raise the wires out of the snow.

AND Sherman wept when 'Lize Pinkston fell.

SWEET Lips is the name of a new Tennessee post office.

THE Inter-State Commerce law went into effect Tuesday April 4th.

PROHIBITION was defeated in Michigan at the Tuesday election.

THE crop of "fruit crop" liars has fallen short of the average this season, which is why we remark.

Communion at the Cumberland Presbyterian church Sunday at 11 a. m. Subject at 7:30 p. m., Wrecked.

A friend writes us that Nashville is some larger than Clarksville, but that we can beat it on fires, editors and preachers.

To the credit of the press of Clarksville the "Phoenix-like" and "rising from the ashes" business has not been inflicted upon our suffering people.

ALL the fire reports have omitted to mention that Mr. Ike Kleeman, whose bed room was over the store of J. F. Bell, lost his furniture amounting to \$100.

If you have a cold, cough, bronchitis, or any form of throat or lung disease, do not neglect it. Byer's Cherry Pectoral, if promptly taken, will speedily relieve and cure all ailments of this character.

An old-timer from Christian county this week, who had been looking upon it when it was rosy, was asked if he was on a high-lonesome. He replied: "No! I ain't on a high-lonesome; I'm on a boom!"

CATARRH, when chronic, becomes very offensive. It is impossible to be otherwise healthy, and, at the same time, afflicted with catarrh. This disagreeable disease, is the most obstinate and dangerous forms, can be cured by Ayer's Sarsaparilla.

THE first show of the season, resembling a circus, made its appearance in the city Wednesday. It was rather premature. The dancing was good, and the audience caught the words of the songs—they caught the air when they got out on the street.

MARRIED at the residence of Mr. John Dixon, six miles east of Clarksville, by Rev. J. W. Hill, on Wednesday, the 6th instant, Mr. M. K. White, of Garrettsburg, Ky., and Miss Lena Organ of Montgomery county. Mr. Joe Quarles was one of the attendants from Christian county.

It has been suggested by several gentlemen that John Stewart's services and his daring bravery at every point of danger during the fire should be fittingly acknowledged. We suggest that a neat suit of clothes would be very fitting for such a compliment, which "Windy" so richly deserves.

ASSISTANT superintendent, George Faxon, informs us that the temporary work has been put up across Sinking Fork and the track laid across. The men are laying the track beyond and will soon reach Cerulean Springs. Capt. Conroy has the rock out for the piers of Sinking Fork bridge.

THERE is no one in the tobacco business in Trenton now. W. T. Grant & Co., of Louisville, have shipped all their strips from Trenton to Australia. They have a factory in Henderson, Ky., at which they put up black leaf; and a factory in Louisville at which they put up Africans. They also have factories in Uniontown, Ky., and Pittsburg, Pa.

S. Platowsky, the leading merchant of Guthrie, Ky., presents his customers with a list of inducements which he sets forth in a display advertisement in this paper. He understands the magic of printer's ink and we solicit for him the liberal patronage which his large and varied stock of seasonable goods deserves.

THE protracted meeting will begin at the Methodist church next Sunday. The Rev. O. P. Fitzgerald, editor of Nashville Christian Advocate will preach morning and evening and conduct a Love Feast at 4 p. m.

The public is cordially invited to attend these services and the co-operation of all Christians is earnestly desired.

W. R. PEEBLES, Pastor.

THE regular spring advertisement of the well known dry goods merchant, Mr. A. R. Hall appears in this paper to-day. His plan of doing business is exact and methodical. He never advertises goods unless he has them in his house and he advertises as regularly as the spring and fall succeed each other. He regards liberal advertising as a legitimate part of a merchant's expense, knowing, as he does, that the investment always brings a liberal return.

They are now Located.

Conlier Bros., in the Rice & Broadus house, and Lockert & Reynolds in part of same house.

Bloch Bros., in the Henry Frech house.

Pugh over Ligon's confectionery.

J. F. Bell five doors east of Caldwell's stable on Franklin street.

Glick is in Pitman & Lewis' old stand.

R. S. Broadus over Hall's store, for the present.

Hattler's tailor shop is over Simon Katz dry good store.

Charley Kee & Jack Den in the rear of Joslin's saddlery store.

CLARKSVILLE is steadily improving. Spring trade is active, workmen are building houses, laborers are improving the streets in every direction, the water works and electric lights are in good order, the general health is good, our railroad bonded debt is being reduced, taxes are about the same as last year, the general trade of the city is greatly extended, and the tobacco sales this season will go beyond 50,000 hogheads.

J. S. HALLUM & BRO., dealers of Springfield, sold through the house of Herndon, Hallums & Co., at the Exchange in this city on Tuesday, nine hogheads of tobacco which averaged \$14.50. The best hoghead brought \$17.50, and another brought \$17.00. This tobacco was raised in Robertson county and purchased by Messrs. Hallums & Bro., at their house in Springfield.

Four years ago Allensville precinct in Todd county voted a tax of \$8,000 to build a pike to the district line in the direction of Elkton. Parties opposing the tax applied for an injunction preventing collection of the tax. The case was decided in the Todd circuit court against the injunction, and last week the court of appeals affirmed the judgment of the Circuit court. So it appears that the tax will be collected.

WE are requested to call attention of the conductors and engineers of the I. A. & T. railroad that they endanger the lives of the school children and others passing along the pike between Clarksville and New Providence by neglecting to blow the whistle before they reach the crossing. Knowing those parties as we do it is only necessary to call their attention to this request of the people and it will at once be complied with.

Monday morning there was a wreck of two freight trains on the trestle at the south end of Red River bridge near Adams' Station in Robertson county. They were going the same direction but the front train broke in two and ran back on the approaching train. Eight cars smashed were loaded with wheat, flour, oats, hay and coal. A caboose and engine were destroyed, but no lives were lost. Fifty feet of the trestle broke down under the pressure of the collision. Capt. Tom Mallory escaped with his usual luck, by being on another train.

EIGHT lots of the McReynolds estate, between Franklin and Main streets, sold by Executor Merritt under will, brought \$5,976. Three lots of it on Franklin street averaged about \$20 per foot, and five on Main street about \$7 per foot. W. B. Anderson bought No. 1, on Franklin street, \$1,113; Dr. Carney and Gen. Savage No. 2, at \$1,191; Dr. Runyon, of Trenton, No. 3 next to Barksdale's at \$1,191; on Main street, five lots were bought by W. B. Anderson, Dr. Carney and M. Savage; No. 5 at \$933; No. 6 at \$429; No. 7 at \$493; No. 8, corner lot, at \$735. Dr. Runyon it is understood, will build a handsome residence on his lot and locate here.

STEAMBOATS: The City of Clarksville has been laid up at the wharf a few days for repairs. The Hillman went up to Nashville Wednesday morning with a good cargo of corn and general merchandise and walnut lumber from Clarksville. The Rhea went down to Paducah Tuesday with a cargo of pig iron from Drouillard's furnace at Besseytown, thirty miles above Clarksville. The Drouillard passed down Wednesday night with a cargo of pig iron from the same place. Clarksville will soon be manufacturing some of this pig iron.

THE steamer City of Nashville was bought last week by the Clarksville & Paducah Packet Company, from Capt. J. W. Lovell. This boat is nearly as large as the Rhea and can carry 250 hogheads of tobacco. It is light draught and very fast speed, and will run regularly between Nashville and Paducah.

The Gracey wharfboat is filled with goods for our city merchants, the blockade being caused by Sunday's fire.

PAT GINLEY, night policeman, states that he rang the alarm bell at 4:30 o'clock Sunday morning, before any one else.

"HOT COFFEE," the little twelve year old colored boy at Caldwell's stable acted bravely during the fire, and is happy to know that he made himself useful.

Bell requests us to say that he most fully appreciates the kindness of all the citizens, and desires to express his gratitude for the generous assistance rendered to him by the college boys during the fire. He also thanks the faithful negroes who labored so patiently in saving his goods.

The Model Roller Milling company, of Trenton Ky., will commence business with the coming season as an incorporated company. As soon as \$5,000 more is subscribed work will commence on a new warehouse with capacity of 40,000 bushels.

This will enable farmers at harvest to store their wheat at a low rate of storage and insurance and it will give them the benefit of any advance in prices during the fall and winter. Dr. J. S. Dickinson is president of the company; John T. Rabbeth is business manager, and Robert Rutherford is secretary and treasury.

To illustrate the benefit which the farmers will derive from this arrangement, say the farmer sold his crop of wheat last July at 60 cents, and the remnant (if he had any reserved) at 80 cents in January, he could have stored his entire crop in the warehouse or elevator from July until January for 6 cents and would have saved in this 14 cents on every bushel of his wheat.

BLOCH BROS., have purchased for \$10,000 the splendid store house formerly occupied by Henry Frech on Franklin street and have reopened their business in it. They announce the fact through a displayed advertisement in our paper this week. They are gentlemen of large capital, great business experience and well established reputation. Their many friends will be glad to learn that they are going ahead regardless of the losses by the recent fire.

THE Fire Engine used by engineer Joe Jarrell is from the Sibley Manufacturing company, Seneca Falls, N. Y. It needs a set of new flues and the city authorities ought to attend to this immediately. About five hundred feet more hose is also needed. Tuesday evening Engineer Jarrell had the engine rubbed bright and clean and all the hose in order for work on a moment's notice.

Joe Jarrell, Bud Goostree, Clayton Buchanan and Dan Dineen were with the engine all day.
